

Enhance Care Transitions with DaVita On-Site SNF Dialysis

Streamline discharges and enhance patient care with DaVita's on-site dialysis programs at skilled nursing facilities (SNFs). Simply send referrals to a single point of contact at the SNF and let us take care of the rest.

DaVita, a leading dialysis provider with 20+ years' experience, provides on-site dialysis for 40% of U.S. dialysis patients. Our admissions process for on-site SNF dialysis has been simplified to allow for faster, easier discharge planning:

When discharging patients to a DaVita on-site SNF dialysis program, the following records are required to send to the SNF in order to complete patient admissions.

- Fact Sheet/Demographics
- **History and Physical (within 1 year)**
- **3 Most Recent Dialysis Treatment Flowsheets/Orders**
- PPD or Chest X-Ray (within 90 days)
- Hepatitis B Surface Antigen Result (within 30 days)
- Hepatitis B Surface Antibody Result (within 1 year)
- **Hepatitis B Total Core Antibody (within 1 year)**
- Recent Lab Results (CBC, Renal Function Panel, etc.) (within 5 days)
- Medications and Allergies List
- Renal Progress Notes (within 5 days)

*Bold denotes "Fast 4"- H&P, CXR, Dialysis Orders/flowsheets, Hep B panel
